

## MUSTANG BULLITT - GENERATIONS

A Retrospective of Cool Ford Feature Cars | 2001, 2008/09, 2019/20

By Anthony S. Alonso

Tony Alonso, co-author of “Enthusiast + Engineer = Excitement – Building the 2001 Bullitt and 2003/04 Mach 1 Mustangs” (released in June 2018) will present a look at the evolution of 3 generations of Bullitt Mustang feature cars in a new book projected to be available in summer 2020. This narrative will explore what links these feature cars to the 1968 Mustang GT fastback from the movie “Bullitt”. There was a “recipe” used for the 2001 model that was revisited for the 2008/09 and now the 2019/20. Enthusiasts worldwide have responded to that recipe from the beginning, which is a big part of what makes these models desirable.

Tony has been an automotive enthusiast since purchasing his first performance car in 1987. Since then, he has owned performance vehicles from a variety of manufacturers.

Tony is privileged to own all three Ford Mustang Bullitt models – a black 2001, a highland green 2009, and dark highland green 2019. His past Ford Mustang list includes a 1994 GT, 1996 SVT Cobra, 2000 GT, 2003 Mach 1, 2007 GT, 2010 GT, and 2015 GT.

Originally hailing from Summit, IL (a suburb of Chicago), Tony lives in Cincinnati, OH, USA with his wife, Shane.
