

Accelerator or Adrenalin Pump?

You Be the Judge

The all-new **Shelby GT350** is a world-class sports car that draws its credentials from its legendary racing roots at **Shelby** and the **Ford Performance Team**. This car was not only engineered to complement the all-new 2015 Ford Mustang design ... it was developed to take racetrack-ready, heart-pumping performance to a new level.

SHELBY GT350

The Heart and Soul...

Is a naturally aspirated **5.2L V8** engine featuring a flat plane crankshaft.

▶ **526 horsepower**

▶ **429 lb.-ft. of torque**

▶ **8,250 Redline**

▶ **3160 TREMEC® lightweight 6-speed manual transmission**

Model Lineup

Closely inspired by the original '65, this all-new platform is a world-class performance car that delivers on the Shelby GT350 name. Two models will be offered:

GT350 | **GT350R®**

Driving Dynamics

In addition to its new lightweight design and an all-new suspension, key elements include:

- **Integrated Drive Controls (IDC)**
 - Adjustable vehicle settings
- **MagneRide™ damping system**
 - Ultra-quick response
- **Lightweight chassis components**
- Specially designed **Michelin® Pilot® Super Sport** tires feature a unique compound and construction tread pattern
 - **19.0-inch x 10.5-inch front wheels**
 - **19.0-inch x 11.0-inch rear wheels**

Shelby GT350 Aerodynamics

The **Shelby GT350** also features a number of unique body components that are engineered to deliver a balance between downforce, drag and cooling. Features are specifically designed to move air in, around and away from the body, the engine compartment, brake rotors and undercarriage. Unique-to-GT350 components include:

- Aluminum hood with centre vent
- Widened aluminum front fenders
- Front and rear fascias
- Front splitter
- Rocker panels
- Rear valance with integrated diffuser

Track-Ready Braking

All-new braking system features fixed calipers on all four wheels:

- Brembo® 6-piston fixed front calipers
- Brembo 4-piston fixed rear calipers
- Cross-drilled 2-piece brake rotors (15.5-inch front/15.0-inch rear)

Shelby GT350R

The ultimate factory-produced, racetrack-ready car ups the game further with enhanced high-performance features, such as:

- Carbon-fibre wheels
 - 19.0-inch x 11.0-inch — front
 - 19.5-inch x 11.5-inch — rear
- Michelin Pilot Sport Cup 2 tires
 - 305/30ZR19 — front
 - 315/30ZR19 — rear

It also removes features that add unnecessary weight, such as air conditioning, radio and rear seat.

Available Package Upgrades

Shelby GT350 Package upgrades include:

- **Track Package**
 - MagneRide
 - Unique springs and sway bars
 - Engine oil, transmission and differential coolers
 - Integrated Drive Controls
 - Lightweight metal tower-to-tower brace
- **Technology Package** — includes several **select** features of the Track Package, **plus** a number of interior features and technologies, such as:
 - MagneRide
 - Integrated Drive Controls
 - Climate controlled leather-trimmed seats
 - 7-speaker audio system
 - 8-inch touch screen with navigation
 - And many more ...

• **“Over-the-Top” Racing Stripe**
See the Ordering Guide for full details regarding each package.

“A car makes the name ... a name does not make a car” — Carroll Shelby

A Racing Legend

Shelby GT350 has an impressive history that represents a collaborative effort between automotive legend **Carroll Shelby** and our own **Ford Performance Team**:

- Shelby first put his name on a Mustang in 1965. **The result was the GT350 and later the competition model — a lightweight, handling-focused race spec car that earned Mustang its original performance credentials**
- In later years, Shelby Mustangs included street version race cars such as the Shelby GT350, GT350-H and the GT500®

Over the years, Shelby GT350 has been further enhanced by Ford Performance:

- Celebrating more than 50 years of high-performance engineering at Ford, we have developed our own impressive history with responsibility for vehicles such as the Ford GT, F-150 Lightning, F-150 Raptor, GT500, GT500KR,™ Focus ST, Fiesta ST as well as our latest developments ... the all-new Shelby GT350 and GT350R

A Song All Its Own

Want a little sample of what the GT350 sounds like? Simply go to **YouTube** and search **“Ford Performance: The All-New Shelby GT350.”**
